we prove it.

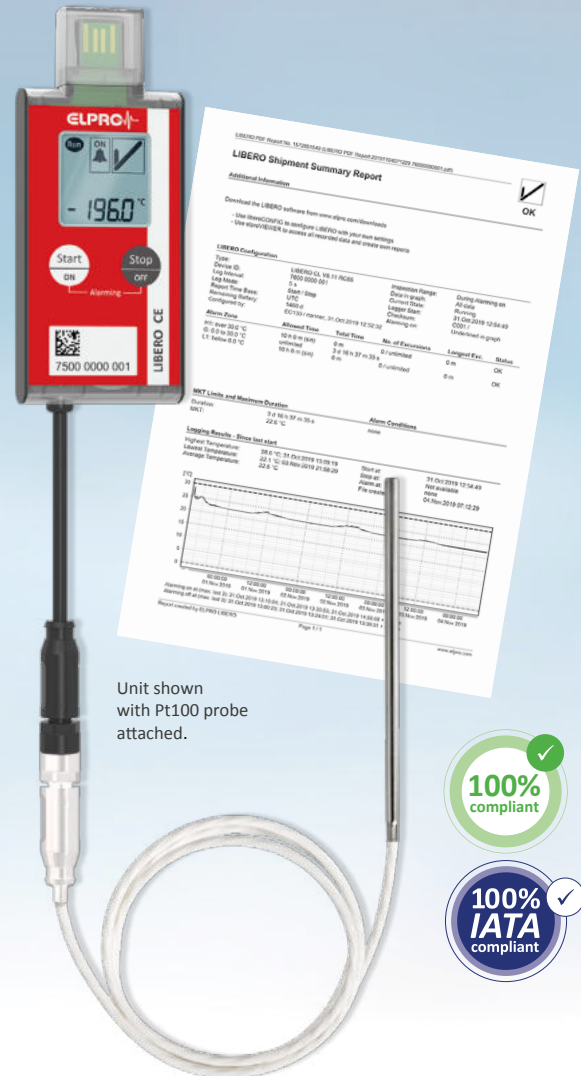

+ SWISS QUALITY

LIBERO CE

ELPRO LIBERO — trusted for over 30 years by the world's leading pharma, life science, biotech and healthcare professionals to monitor critical assets stored or transported in cryogenic and ultra-low temperatures. The new LIBERO CE features:

- > Configurable multi-use data logger; three-year battery life
 - > Temperature measurement range of -200 °C..+400 °C
 - > Memory capacity of up to 75,500 temperature values
 - > Pause Alarm feature allows for easier LN2 tank refills
 - > Multi-level stability budgets with up to eight temperature alarm zones
 - > Improved display status modes for easier handling and faster critical decision making
-  Compatible with LIBERO Cloud database solution, powered by liberoMANAGER
 -  Superior data management
 -  Guaranteed 100% compliant certificate of validation; optional NIST or ISO 17025 calibration
 -  PDF assessment reports with embedded data
