Happy
New Year 2024

As we bid farewell to the year

gone by, we want to express our deepest gratitude to all of you. Your trust and support have been the cornerstone of our success, and we start this new year with excitement and gratitude.

About PACIFIC SCIENCE, LLC

Pacific Science, LLC is an independent sales and service organization representing manufacturers of cold storage equipment and services used in the life science cold supply chain space.

We provide safe, secure, and regulatory-compliant solutions for storing, distributing, and managing biomaterials that require controlled temperature environments.

✓ Equipment Check: Ensuring a Smooth Start to the New Year!

As we embrace the new year, setting the stage for success is vital. A key priority is ensuring all **CRYOGENIC FREEZERS** are in top-notch condition.

Pacific Science, LLC is committed to ensuring optimal performance and longevity of cryogenic freezers through comprehensive **preventative maintenance** checks. Our dedicated team will inspect seals, verify temperature controls, and assess overall functionality based on manufacturers' specifications.

✂ Why Preventative Maintenance Matters:

Reliability: Preventative maintenance enhances equipment reliability, minimizing the risk of unexpected breakdowns.

Cost Savings: Proactive maintenance helps identify and address issues early, reducing the likelihood of costly repairs.

EMPLOYEE SPOTLIGHT

We spotlight Ron Pittner, one of our dedicated Pacific Science, LLC employees who went above and beyond to save a child in distress.

On his way to a job site, Ron noticed a panicked woman struggling to access a car. Ron approached the woman to offer his assistance. The woman did not speak English, and there was a child strapped into a car seat within the vehicle. Temperatures in Los Angeles were rising quickly, well into the 90s. Despite their combined efforts, the car door proved unyielding. Recognizing the severity of the situation and the lady's limited communication skills, Ron called for help and stayed with the mother until assistance arrived. Emergency responders were able to open the door and extract the child from the car.

Ron's actions are not surprising to those of us that work with him. His dependability and genuine care for others eliminated a crises. His selflessness makes him a true hero – our hero. We are proud to have Ron as part of our team, where his compassion extends beyond the workplace, embodying the values that define our company.

Thank you, Ron, for your exemplary display of caring.
