▶▶▶▶▶ PARTNERSHIPS THAT STRENGTHEN EVERY STEP OF THE EQUIPMENT ACQUISITION PROCESS

What if your lab equipment provider could do more than just deliver a freezer?

Working closely with equipment manufacturers, our in-house field technicians and facility management teams ensure labs run more efficiently and reliably. We deliver a seamless experience, verifying that cold storage systems are installed, qualified, and maintained to the highest standards.

From sourcing the right ultra-low or LN₂ freezer to performing IQ/OQ/PQ validation and ongoing preventative maintenance, our team provides the single-source reliability that labs can depend on.

OUR COMPREHENSIVE SUPPORT INCLUDES:

- **Equipment sales, installation, and startup.**
- **IQ/OQ/PQ validation** that meets regulatory requirements.
- **LN₂ piping design, installation, and system setup.**
- **Temperature mapping** to ensure consistent and appropriate temperatures.
- **Preventive maintenance** that extends equipment life and performance.
- **Streamlined project coordination** with facilities or the project management team.
- **Peace of mind** knowing systems are installed, qualified, and serviced by one accountable partner.

INDUSTRY NEWS

CONGRESS MOVES TO REAUTHORIZE FUNDING FOR NATIONAL CORD BLOOD AND BONE MARROW TRANSPLANT PROGRAMS

A bipartisan group of lawmakers in the U.S. House has introduced new legislation to extend funding for two cornerstone programs that connect patients with life-saving stem cell treatments.

The Stem Cell Therapeutic and Research Reauthorization Act of 2025 proposes more than \$280 million in federal funding over the next five years, ensuring that these initiatives continue past their current 2026 expiration date.
